METHOD OF PAYMENT

Payment methods may be cash, credit card, money order, check, Title IV grants and loans. Any cash payments required may be broken down in either weekly or monthly amounts that may vary from student to student. The school will work with each individual person to develop a payment plan that will fit their budget. Caution should be exercised that the payments established at the beginning of the program are realistic for each student. Once amounts are set there can be little deviation from acceptable payments. For more details contact the financial aid officer.

An out-of-state transfer student's tuition fee is the same as in state students. (See schedule on page 18). Financial aid is available to those students who qualify for it at any campus. This may be a PELL grant, direct student loan or both. If the student qualifies for a PELL grant, then it is possible the Federal Government may pay a portion of the charges for the student's education. The balance, if the student qualifies, can be paid in the form of a loan which the student does not start repaying until 6 months after graduation or until 6 months after the student drops to less than half time attendance. Thus, it is possible for a student to enter into school with no money down for tuition and have no monthly payments until 6 months after graduation. There are no reductions in fees. Veteran students please see page 10 for regulations governing your method of payment.

The school offers a scholarship based on attendance. The Gold Seal Scholarship is available through the local high school.

OPTIONAL STUDENT EQUIPMENT

Any additional equipment over and above the basic student kit will be purchased by the student. Fee waivers not applicable.

FINANCIAL AID FEDERAL ASSISTANCE

Our academies participate in the following Federal Financial assistance programs:

Pell Grants, Subsidized Student Loans, Unsubsidized Student Loans and Parent Plus Loans

Federal assistance is available for those who qualify to help students pay for their education and training after high school. Additional information on financial aid is available from the Financial Aid Director during normal school hours. If a student should complete their program earlier than the estimated completion date, the student's financial aid package may be recalculated which may result in additional liabilities owed by the student and/or the institution. Students are apprised of expected federal funds for a specific award period on or before the first day of class based on financial and or other pertinent information the student provides to the school when filling or verifying FAFSA information. Federal funds are disbursed according to the student's scheduled payment periods. Examples: 1 hour, 451 hours and 901 hours. Disbursement of federal funds is contingent on the students being in satisfactory progress at the scheduled disbursement date. Failure to maintain satisfactory progress as defined in the school's satisfactory progress policy will cause a student's federal funds to be withdrawn.

PELL GRANT PROGRAM

Pell Grants are awards of Federal Aid funds ranging from \$700 to \$6,895. The amount is based on a determination by the U.S. Department of Education of the students' needs. A Pell grant is an entitlement which means if a student qualifies for an award (s)he will receive it. The method of payment for Pell Grants is by electronic transfer from the US Department of Education through our third-party servicer, FAME. Disbursements are usually made in two payments for Pell grants. Aid from Federal programs do not automatically continue from one year to the next. Students must reapply every year on-line at FAFSA.gov.

STUDENT LOAN PROGRAMS

Student loans are sums of money that are loaned from the federal government to aid in education. These are low interest loans designed to aid individuals in achieving their educational goals for establishing new career paths. If the student qualifies for these loans, they will not start payments until 6 months after graduation or until 6 months after the student drops to less than half time attendance. Thus, it is possible for a student to enter into school with no money down for tuition and have no monthly payments until 6 months after graduation. There are no reductions in fees. Veteran students please see page 10 for regulations governing your method of payment.

TERMINATION/RE-ADMITTANCE

Occasionally the school deems it necessary to terminate a student from the school. The reasons for termination are:

1. Profanity, foul language, lack of respect for Instructors and staff, or any unbecoming conduct will NOT be tolerated.
2. Cheating or passing answers on any test.
3. A bad attitude reflected by an unwillingness to learn, coupled with poor grades.
4. Illegal drugs or alcohol.

Dismissal may occur for unsatisfactory attendance, grades or progress. To be re-admitted the student must submit in writing the reasons for re-admittance or re-enrollment.

Leaves of absence may be granted to a student if the request is put in writing. Verbal requests are not valid and cannot be honored. A leave of absence may not extend 180 days. If the student requires more than 180 days, then the student must withdraw and re-enroll after 6 months. Students may use the 180 days in different intervals, either personal or medical, within every 12 months enrolled in school. Although some students do not complete their program of study for a variety of personal and academic reasons, our policy is to help students in every way possible to complete their program of study, and qualify for a license within their chosen curriculum.

Many students who discontinue their studies are subsequently readmitted and ultimately complete their course of study. While there is no charge for absences, should a student require extra hours beyond the scheduled date of graduation to complete the course, they may incur additional charges. If a student does not return from an approved leave of absence or otherwise withdraws from school, she/he will be charged up to the last day of attendance computed on the basis of the school's refund policy.

GRIEVANCE

A student having any type of grievance or complaint with any function of the school must file a signed dated formal written complaint to the Director within 48 hours of occurrence. A decision will be made within 30 days of filing and appropriate action taken. All decisions by the Director are final. It is strongly recommended that all such occurrences be resolved by discussion and mutual cooperation. However, if after following the school's compliant procedure a student is still unhappy with the outcome, the student may contact the accrediting body, NACCAS (whose address appears in the school catalog on page 8) for a formal complaint form. NACCAS strongly asks that a student try to resolve the complaint through the schools' internal complaint procedure. Students who feel a grievance is unresolved may refer their grievance to Executive Director, Commission for Independent Education (whose address and phone number appears in the school catalog on page 8).

REFUND and TUITION SETTLEMENT POLICY

The school tuition refund policy complies with 6E-1.0032 Fair Consumer Practices standards of the Commission relative to the operation of independent post-secondary education institutions in Florida and Policy VII.01 as published in the N.A.C.C.A.S. accreditation handbook for schools. The policy is also available on the institution's website at www.fpbeauty.com

1. An applicant that is not accepted for enrollment by the school shall be entitled to a refund of any monies paid prior to enrollment. Academies of Cosmetology Inc. does not have an application fee.
2. An accepted applicant (or an applicant under the legal age, their parent(s) or guardian) may cancel the enrollment contract and request his/her money back by contacting the school in person, by e-mail, or certified mail within three (3) business days after signing the enrollment agreement regardless of whether the student has started training. (Postmark for mailed cancellations will be the date of cancel) Any monies collected by the school upon receipt of cancellation would be refunded.
3. A student may cancel the enrollment contract **after** three (3) business days of signing, but prior to entering classes. In this situation, the student is entitled to a refund of all monies paid to the school less a registration fee of \$150.00.
4. At any point after the enrollment agreement is executed and after entering classes, should a student request cancellation of their contract, or is terminated for any reason, a refund of tuition will be made in accordance with the tuition settlement schedule. Refund calculations are calculated per the tuition charge for payment period the student has entered. Students are only financially obligated for tuition charges as they progress through the program and enter each payment period. An example of payment periods, the first payment period is 0 hours to 450 hours, the second payment period is 451 hours to 900 hours and the third payment period is 901 hours to 1200 hours. Payment periods are defined on page 33.
5. All determinations of withdrawal are based on the scheduled hours within the period enrolled as defined in the enrollment agreement effective the actual last day of recorded attendance. All refunds required by this policy shall be made within 30 days from the date that the institution determined the student had ceased enrollment.

Academies of Cosmetology Inc, only offers clock hour programs.

A student may provide official notification of intent to withdraw by following the school's withdrawal process. Unofficial withdrawals are defined as withdrawals that the school identifies from attendance records or the date a student fails to return to academic study at the end of an approved leave of absence. ALL withdrawals use the last day attended for calculation.

Academies of Cosmetology Inc. routinely monitors attendance records to determine in a timely manner when a student withdraws. Except in unusual instances, the date of the determination that the student withdrew should be no later than 14 days after the student's last date of attendance as determined by its attendance records.

Students who commence class, the following tuition refund schedule will be applied.

Percentage of Period Scheduled Hours

Amount of Tuition Owed to School

0.01% to 20.00%
20.01% to 24.99%
25.00% to 49.99%
50.00% and above

Pro-Rata % of Period Tuition Charged
45% of Period Tuition Charged
70% of Period Tuition Charged
100% of Period Tuition Charged

Replacement of any kit contents, supplies, materials, or books that are provided as part of the tuition will be charged separately and will not be included in the tuition refund policy.

For Title IV purposes, clock hour programs are considered programs where schools are required to take attendance. Academies of Cosmetology, Inc is required to measure the clock hours a student completes in their program to satisfy both the requirement of determining that a student is present and that the student is participating in an academic activity. The scheduled hours up to the last date of attendance (as documented) will be used in the determination of any tuition refund and any return to Title IV funds.

Course and/or Program Cancellation Policy

If a course and/or program is canceled after a student's enrollment and before instruction in the course and/or program has begun, the school shall, at its option:

- a. Provide a full refund of all monies paid; or,
- b. Provide completion of the course and/or program.

If the school or campus cancels a course and/or program and ceases to offer instruction after students have enrolled and instruction has begun, the institution shall make arrangements for students in the following ways:

- a. Provide a refund of monies paid up to that date for all students transferring to another school based on the hours accepted by the receiving school in accordance with the settlement policy; or,
- b. Provide completion of the course and/or program; or,
- c. Participate in a teach out agreement; or,
- d. Provide a full refund of all monies paid to date.

If the school or campus is permanently closed and no longer offering instruction after a student has commenced academic study, the institution will make arrangement for students in the following ways:

- a. Provide a refund of monies paid up to that date according to the settlement policy; or,
- b. Participate in a teach out agreement.

Title IV Refund Policy

It is important that you consider very carefully the **consequences** of withdrawing from your program. If you do withdraw from school, you may be required to return your Title IV Aid (federal PELL grants, and Federal Direct Loans). A student who has received or is eligible to receive Title IV funds will have a separate calculation to determine the amount of Title IV funds the student was eligible to receive for the scheduled time attended once they are withdrawn.

Under the Higher Education Amendment regulation called Return of Title IV Funds, all students receiving Title IV federal grant or loan assistance who withdraw from the school prior to reaching the 60% of the period are subject to the Return of Title IV Fund policy. This regulation affects the calculation of aid to be returned as well as repayment procedures. The percentage of Title IV aid a student earned is determined by calculating the percentage of the period that the student was scheduled to complete

The Financial Aid Office is required by federal statute to recalculate federal financial aid eligibility for students who withdraw, drop out, are dismissed, or take a leave of absence prior to completing 60% of a payment period or term. All Title IV financial aid programs must be recalculated in these situations. If the student completes less than 60% of the term, the percentage of aid earned equals the percentage of the completed period. Therefore, if a student withdraws at 200 scheduled hours of a 450-hour period the student would be allowed 44.45% of the awarded Title IV and the school would return the remaining portion (55.55%).

A withdrawal from a program prior to the 60% point of any period requires a portion the Title IV awarded to the student to be returned based on the percentage of aid earned and using the following Federal Return of Title IV funds formula:

$$\frac{\text{\# scheduled hours in the period up to the last date attended.}}{\text{by the total hours in the period.}}$$

(Any break of five days or more is not counted as part of the days in the period.)
This percentage is also the percentage of aid earned.

The institution must return the amount of Title IV funds for which it is responsible no later than 30 days after the date of the determination of the date of the student's withdrawal.

A student whose Title IV R2T4 calculation created a post-withdrawal, the institution may apply funds in the following order:

1. Title IV PELL may be applied to the student's account after the refund calculation has been complete and processed. Notification will be sent with the drop paperwork notating the amount of grant applied to the student's account and/or to be refunded to the student.

2. Title IV student loans, student and/or parent, requires written notification of the amount to be either applied to the account and/or offered to the student and/or parent. The institution must maintain record of the date the notification response was received back by the institution or noted if the response was not received back. The institution will notify student and/or parent that the school does not except late response. The institution will also notate the date the funds were mailed and/or transferred, both the grant and the loans.

The institution must return the amount of Title IV funds for which it is responsible no later than 30 days after the date of the determination of the date of the student's withdrawal.

Refunds Are Allocated in the following Order:

- 1) Unsubsidized Federal Direct Loans
- 2) Subsidized Federal Direct Loans
- 3) Federal Parent (PLUS) Loans
- 4) Federal PELL Grants
- 5) Iraq and Afghanistan Service Grants
- 6) SSEOG
- 7) TEACH Grants

PROGRAM REQUIREMENTS

Our schools do not offer distance education at this time. For all programs, students are required to complete minimum practical services (repetitions) in each area in order to be certified for state board exams. Quantity necessary for each program is defined in the course syllabus. Minimum practical work under direct supervision of instructors, performed on either mannequins, patrons or fellow students. It is extremely unusual for us to terminate a student because of poor grades. However, if grades do become a problem, the student can be put on warning until the next evaluation period. For more information see Satisfactory Progress Policy page 27. Veteran students please see page 10 for regulations governing your progress. Records of progress are maintained by the school and furnished to the student upon request. Satisfactory progress for students receiving Pell grants or student loans is defined as a minimum of a 75% academic grade point average and an attendance minimum of 67% grade point average. The legend for the course number system is: M = massage therapy C = cosmetology B = barber FS = full specialty. A clock hours is defined as 55 minutes of instruction. Students will be notified of any changes made at the school. All courses are taught in English.

The following program is offered at our Vero Beach and Port St. Lucie locations only.

The school's catalog can be viewed at www.FPbeauty.com The Satisfactory Academic Progress Policy FA-SAP and SAP Policy is listed in the Course Catalog and also available for public review prior to enrollment on the website under courses.

B. Quantitative and Qualitative Measurements

FA SAP, SAP uses quantitative and qualitative measurement to evaluate students' progress within a selected program from start date to a specific maximum time frame specified in course outline.

- a. Quantitative is the attendance percentage measurement that must be maintained at 67% attendance percentage through the course length.
- b. Qualitative is the academic measurement used to determine the students' progress within the course of study in a specific time frame which is the minimum acceptable level of 75% cumulative grade point average.

C. Theory and Practical Objectives

Theory and practical chapter test grades are used to determine student grade point average. Students are assigned academic learning and a minimum number of practical experiences. Academic leaning is evaluated after each unit of study. Practical assignments are evaluated as completed and counted toward course completion only when rated as satisfactory or better. If performance does not meet satisfactory requirements, it is not counted and the performance must be repeated. At least two comprehensive practical skills evaluation will be conducted during the course of study. Practical skills are evaluated according to text procedures and set forth in practical skills evaluation criteria. Students must maintain a written grade average of 75% and pass final written and practical exam prior to graduation. Students must make up failed or missed tests and incomplete assignments.
